SOIL TESTING

Why soil Test?

Have you had areas of your paddocks that have not performed to expectation? Soil tests help to analyse the nutritional status of your soil and what chemical properties may be limiting your production. Is pH beginning to limit production? Understanding your soil is important to help drive your agricultural production and make decisions throughout the season to assist with maximising your yields.

Come and have a chat with Sam or Amber to arrange your tests.

POLYMASTER SWEEP THROUGH TROUGHS

New to Lincoln Rural and available at Cummins and Port Lincoln.

An all poly, sweep out trough that's user friendly. Ideal for sheep troughs in dusty areas. Minimises water wastage and maximises water efficiency when cleaning.

- Available in 200L and 450L capacity.
- Sweep out end for easy cleaning.
- Tough double skin mould for extra strength.
- 2 inch drain for stock water and ballast water (450L only)
- Ballast water adds weight to prevent stock damaging/ moving the trough when empty, and helps keep drinking water cool.
- Float cover prevents any damage to inlet
- Suitable for sheep or cattle.
