

NURTURE N CONTROLLED– RELEASE NITROGEN

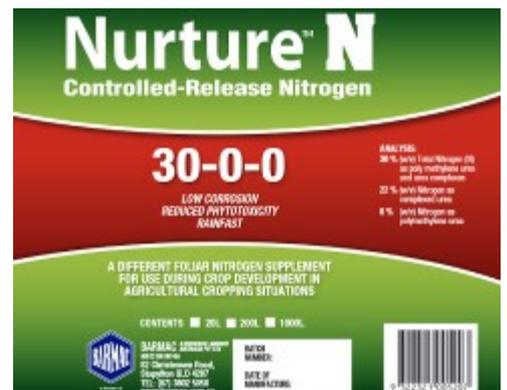

Are you sick of burning crops with liquid nitrogen applications? Or having to do multiple passes due to incompatibilities?

Nurture N is a more efficient nitrogen source than most other foliar nitrogen sources with less phyto-toxicity and better compatibility.

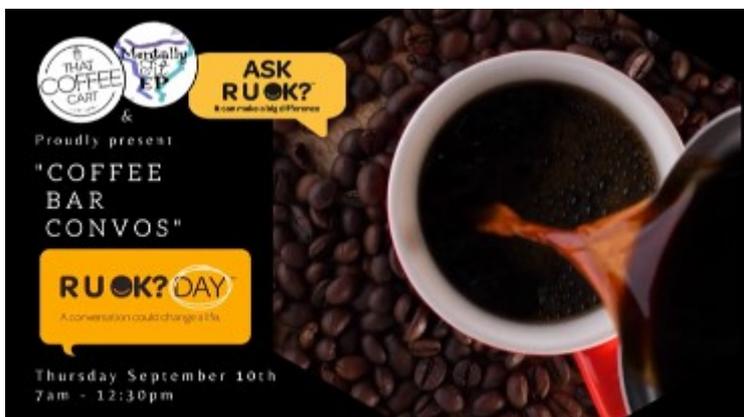

Nurture™ N 30-0-0 is a unique, controlled release liquid nitrogen foliar fertiliser designed for use in a wide range of agricultural/ horticultural situations Nurture™ N 30-0-0 is a clear formulation based on a mixture of polymethylene and complexed ureas and is a plant-safe option for foliar application on a wide range of horticultural and broad acre crops.

Benefits:

- Plant safe formulation due to its very low salt index and humectant properties, so as not to be phytotoxic when foliar applied.
- Low corrosive properties so easy on spray application equipment.
- Great nitrogen formulation for crop recovery of stressed crops due to waterlogging.
- Takes longer to dry on leaf surface due to the humectant properties, extending the foliar absorption time significantly.
- Provides controlled uniform nitrogen release pattern to maximise crop growth over an extended period of up to 3 weeks.
- Excellent compatibility with pesticides and fertilisers & trace elements.

R U OK? DAY

Mentally Fit EP are teaming up with That Coffee Cart in support of R U Ok? Day, which is on Thursday 10th of September 2020, which also falls on World Suicide Prevention Day.

R U OK? Day's goals are to:

1. Boost our confidence to meaningfully connect and ask about life's ups and downs
2. Nurture our sense of responsibility to regularly connect and support others
3. Strengthen our sense of belonging because we know people are there for us
4. Be relevant, strong and dynamic

PIPE FITTING ROOM PRODUCTS

New Philmac Pipe Repair Kits now in our range

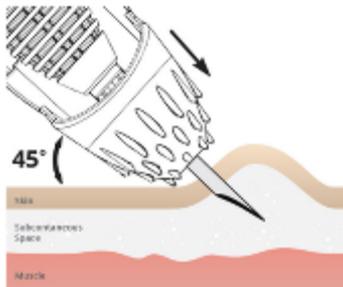

Based on the Metric fitting platform, the kit includes 2 slip joiners and a length of straight pipe. The kit is easy to use and adjustable in length suiting most repair situations and minimising the amount of soil to be removed.

U.T.C Fittings

The Philmac UTC (Universal Transition Coupling) is a unique range of mechanical compression fittings that provide the ultimate in pipe connection flexibility. The same fitting connects to a variety of materials including PVC, Copper, Galvanised Iron, ABS, Lead, Stainless Steel and Polyethylene. Each Fitting covers a range of diameters providing a “Universal” solution.

ZOETIS SAFESHOT VACCINATORS

Available in 1ml and 5ml Safeshot Vaccinators are ideal for one handed vaccinating. They offer Increased safety when administering subcutaneous vaccine with it's shrouded needle.

Available In Store now !!

FATHER'S DAY GIFT IDEAS

If you are going to buy him socks make sure they are quality socks

Available in the gun room 1/3 scale non firing collector models

MONITORING YOUR CROPS MOVES INTO OVERDRIVE NOW!!

With a plentitude of insect activity already this growing season we can only expect that the critical flowering, podding and head emergence stages of your crops are going to be challenged again. So with this in mind it is important to be monitoring on a regular basis. Twice weekly for your high risk crops and weekly for all other crops.

What you will need - Carry a net and magnifying glass with you and allow yourself plenty of time to check multiple parts of each paddock.

Lincoln Rural’s Agronomy team is already actively sweeping our clients crops and are happy to assist any other growers with their monitoring., insect identification or threshold information. For assistance contact our Port Lincoln office.

BORE TECH ELIMINATOR

Bore Tech Eliminator™ Bore Cleaner is the premier, state of the art bore cleaner that has taken the shooting industry by storm. The revolutionary and patented formula is 100% barrel safe, biodegradable and easily outperforms the competition. Eliminator rapidly removes carbon and copper fouling without the safety hazards, harmful toxicity, and unpleasant odours found in competitive cleaners.

Important Gun Cleaning Solvent Features Include:

- 100% Barrel Safe
- Odour Free
- 100% Biodegradable
- Contains No Ammonia
- Acts as a short-term Rust preventative

WHAT IS YOUR DOG'S FAVORITE?
